Attention: Matthew Brown

Dear Mr Brown

SARA information request – 1933 Dalby Kogan Road, Kogan

(Notice issued under section 12 of the Development Assessment Rules)

SARA has undertaken a preliminary review of the material provided in support of the above referenced application which was deemed properly referred on 26 August 2026.

From this review, SARA has identified the following matters relating to State code 1: Development in a state-controlled road environment and State code 6: Protection of state transport networks, of the State Development Assessment Provisions (SDAP) that it wishes to draw to your attention.

Traffic Impact Assessment

The Transport Impact Assessment (TIA) prepared by MCG Consult does not provide sufficient information to enable a comprehensive assessment of the impacts of the proposed development on the state transport network.

The TIA relies on numerous assumptions regarding key traffic and transport matters but does not provide sufficient supporting analysis, evidence, methodology or design detail. As such there is insufficient information to adequately assess of the full extent of traffic impacts on the state transport network, and the effectiveness of any proposed mitigation measures.

Accordingly, SARA is unable to determine whether the proposal will adversely affect the safety, function or operational efficiency of the network.

Response requested:

The applicant is requested to provide a revised TIA prepared in accordance with the Department of Transport and Main Roads' *Guide to Traffic Impact Assessment (GTIA)*. The revised TIA must:

- comprehensively address all traffic and transport matters relevant to the proposed development
- include sufficient supporting information, analysis, assumptions, methodologies and justifications
- include a detailed assessment of the impacts on the state transport network from the development
- detail any proposed mitigation measures and their justifications.

How to respond

In accordance with section 13 of the Development Assessment Rules (DA Rules), you have three months to respond to this Information Request. The due date of a response to SARA is **8 December 2026**.

You can choose to respond to all, some, or none of the matters raised in this notice.

If you decide not to respond to the matters raised, SARA will finalise its assessment on the material provided to date in support of the application.

It would be appreciated if you would provide your response to SARA using the 'manage documents' function in [MyDAS2](#).

If you require further information or have any questions about the above, please contact Ian McHugh, Principal Planning Officer, on 07 4616 7320 or via email ToowoombaSARA@dsdip.qld.gov.au who will be pleased to assist.

Yours sincerely

Rodney O'Brien
Principal Planning Officer
